ENSSAT

Software & IT - 2008

RNCP Certification

Usabilis

UX/UI Designer - 2022

Profile

Specialised in design systems, I build the foundations that let teams design quickly and consistently. Components, tokens, documentation, governance, I cover the whole chain. I rely on user research to serve real needs.

My background in iOS & web development sharpens my designer's eye.

Professional Experience

2021 → present

Product Designer

Apizee

DESIGN SYSTEM

- Full design system build (dark/light, responsive)
- Design tokens via Figma variables
